DO. No.- N.11026/1/2018-FP.II
Date: 3rd November, 2021

Dear Colleague,

The Government of India launched Mission ParivarVikas (MPV) in 2016 for substantially increasing access to contraceptives and family planning services in 146 high fertility districts with a Total Fertility Rate (TFR) of 3 and above in seven high focus states. These districts have shown a substantive improvement in terms of FP service delivery since inception, which has helped the states in improving their overall indicators.

Taking a cue from this, the scheme is being extended to the six NE states viz. Arunachal Pradesh, Manipur, Mizoram, Meghalaya, Nagaland and Tripura comprising 79 districts since these states are still grappling with issues like low modern contraceptive use, high unmet need for modern contraception, high percentage of teenage fertility, poor maternal and child health indicators.

In order to address the challenges, it has been decided to extend the scheme to the 6 NE states. The detailed guidelines are placed at **Annexure**. It is also informed that States may use the unspent balance of Family Planning of current year for initiation of various programmes under Mission Parivar Vikas. However, 1st April 2022 onward, states may propose their **budget requirement** for all the activities under MPV in their respective PIPs for all districts in their state.

Encl: As above

Warm regards

Yours sincerely

(Vikas Sheel)

To

Principal Secretaries, Health (Arunachal Pradesh, Manipur, Mizoram, Meghalaya, Nagaland and Tripura.)
